TABLE OF CONTENTS

Acknowledgements	iv
Alphabetical Index of Entries	v
Subject Index of Entries	vii
How to Use This Guide	xiii
Appendixes	
A. Federal Sources of Information	91
B. County Extension Agents	92
C. Montana Power Consumer Services Managers	94
D. Rural Electric Cooperatives	95
E. Special Project Contacts	97
F. Human Resource Development Councils	99
G. Listing of Entries by Subordinate Agency	100

ACKNOWLEDGEMENTS

The author wishes to acknowledge the following individuals for their contributions to this publication: Lois Delger and Emelia Satre, typing; Carol Kopec, editing; Don Howard, cover design; Tom Livers, review; and Kim Phillips, preliminary work on the document.

A special thanks to the many agencies who provided information for this publication.

ALPHABETICAL INDEX

Alternative Energy Resources Organization (AERO).....	1
Basin Electric Power Cooperative.....	2
Billings Community Energy Program (BiCEP).....	3
Bonneville Power Administration (BPA).....	4
Center for Innovation, Inc. (CFI).....	6
Continental Oil Company.....	7
Energy and Man's Environment (EME).....	8
Exxon Company, U.S.A.	9
Great Falls Gas Company.....	11
Montana Associated Utilities, Inc.....	13
Montana Bureau of Mines and Geology.....	14
Montana Chamber of Commerce.....	15
Montana Coal Board.....	16
Montana Coal Council.....	17
Montana Consumer Counsel.....	18
Montana Cooperative Extension Service.....	19
Montana-Dakota Utilities Company (MDU).....	21
Montana Department of Administration, Building Codes Division.....	22
Montana Department of Agriculture.....	23
Montana Department of Fish, Wildlife, and Parks.....	24
Montana Department of Health and Environmental Sciences, Occupational Health Bureau.....	25
Montana Department of Health and Environmental Sciences, Solid Waste Management Bureau.....	26
Montana Department of Health and Environmental Sciences, Water Quality Bureau.....	27
Montana Department of Highways.....	28
Montana Department of Natural Resources and Conservation (DNRC), Energy Division.....	29
Montana Department of Natural Resources and Conservation (DNRC), Water Resources Division.....	34
Montana Department of Revenue, Research and Information Division.....	35
Montana Department of Social and Rehabilitation Services, Economic Assistance Division.....	36
Montana Department of State Lands.....	37
Montana Energy and MHD Research and Development Institute (MERDI).....	38
Montana Environmental Information Center.....	40
Montana Federation of Women's Clubs.....	41

HOW TO USE THIS GUIDE

Agencies are listed in the guide both alphabetically and according to subject. To locate information on a particular topic, use the listing in the blue pages. Several appendixes have been added to provide further information. These include: Federal Sources of Information, County Extension Agents, Montana Power Consumer Service Managers, Rural Electric Cooperatives, Special Project Contacts, Human Resource Development Councils, and a Listing of Entries by Subordinate Agency.

This resource guide has been prepared to help teachers, librarians, and citizens locate energy information. It describes those agencies involved in energy education and lists the speakers, films, displays, and publications they provide. These lists were compiled from information submitted by the agencies. It is not an attempt to list all organizations in the state that deal with energy, nor does it intend to promote one source of information over another.

ALTERNATIVE ENERGY RESOURCES ORGANIZATION (AERO)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Alternative Energy Resources Organization (AERO) is a nonprofit citizens' organization whose goal is to promote energy efficiency and reliance upon renewable sources of energy. It is controlled by a citizen board of directors with state-wide representation.</p> <p>Associate organizations, the New Western Energy Show and the Pondera Solar Alliance, are semi-autonomous and described in more detail under separate headings.</p> <p>Contact:</p> <p>Joy Coombs 424 Stapleton Building Billings, MT 59101 259-1958</p>	<p>Conducts conferences, seminars, hands-on workshops, and public informational meetings on wind and solar energy, hydro-power, fuel alcohol, wood-burning safety and rammed earth construction.</p> <p>Sponsors the New Western Energy Show in Helena, which tours Montana schools with puppet shows and energy activities for children.</p> <p>Sponsors the Pondera Solar Alliance in Conrad, which offers speakers and workshops, and conducts an annual energy fair.</p> <p>Billings office maintains a library, conducts book sales and provides referrals and speakers.</p>	<p><i>Get Your Hands on Energy.</i> \$5.35.</p> <p><i>The Energy Show.</i> \$3.40.</p> <p><i>The Energy Adventures of Ernie an' Bud.</i> \$.60.</p> <p><i>AERO Sun-Times.</i> Monthly magazine for members. 60 other titles also available from AERO.</p> <p>To obtain publications:</p> <p>Sales are made from offices of AERO, the New Western Energy Show, and by mail.</p>	<p>Speakers:</p> <p>Available.</p> <p>Displays:</p> <p>Available.</p> <p>To obtain speakers or materials:</p> <p>Contact agency.</p>

BASIN ELECTRIC POWER COOPERATIVE

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Basin Electric Power Cooperative is a bulk wholesale electric power supplier for a federation of over 100 rural electric power supply and distribution cooperatives in eight states of the Missouri Basin.</p> <p>Contacts:</p> <p>Franklin V. Soule or Nancy E. Wolf 1717 E. Interstate Ave. Bismarck, ND 58501 (701) 223-0441</p>	<p>Provides staff for large energy-related conferences and seminars.</p> <p>Member REC's (rural electric cooperatives) provide staff assistance for various energy-related programs.</p>	<p><i>Dwelling With Conservation.</i> A guide to home energy management.</p> <p><i>How to Save Money with an Energy Efficient Home.</i> General information about retrofit for the do-it-yourselfer.</p> <p><i>Energy From the Sun.</i> Operation and performance of solar water heating systems.</p> <p><i>Cooperative Conservation.</i> Pamphlet. Describes Basin Electric's involvement in energy conservation and resource sharing projects.</p> <p><i>Energy From the Sun.</i> Pamphlet. Describes headquarter building's solar heating system.</p> <p>To obtain publications:</p> <p>Publications available at \$1.00 per copy. Pamphlets available upon request. Contact agency.</p>	<p>Slides:</p> <p><i>The Insulation Story.</i></p> <p><i>Residential Energy Audit.</i></p> <p>Video-tape:</p> <p><i>Cooperative Conservation.</i> Outlines Basin Electric's involvement in various conservation and resource-sharing projects.</p> <p>Film:</p> <p><i>Saving Energy At Home.</i> Identifies major sources of home energy use.</p> <p>Display:</p> <p>Energy Conservation Display.</p> <p>To obtain materials:</p> <p>Contact agency.</p>

BILLINGS COMMUNITY ENERGY PROGRAM (BiCEP)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>BiCEP is a volunteer citizens' organization serving the city of Billings and Yellowstone County. It is dedicated to the encouragement of energy conservation and the use of renewable energy sources.</p> <p>Contact:</p> <p>Margie Gough Box 20762 Billings, MT 59104 245-6144</p>	<p>Organizes and promotes workshops, seminars, and conferences on energy conservation and renewable energy resources.</p>		<p>Speakers:</p> <p>Available on an irregular basis. Speakers Bureau will be organized in the near future to distribute the results of the Yellowstone County Energy Study and the Energy Futures Conference, held in late 1981.</p> <p>To obtain speakers:</p> <p>Contact Agency</p>

BONNEVILLE POWER ADMINISTRATION (BPA)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Bonneville Power Administration is a power-marketing agency for federally produced electrical energy in the Pacific Northwest.</p> <p>Contact:</p> <p>Gordon Brandenburger District Manager P. O. Box 758 Kalispell, MT 59901 755-6202</p>	<p>Provides general information on energy production, energy conservation, and renewable energy sources.</p>	<p><i>About BPA.</i></p> <p><i>BPA Shirt Pocket Facts.</i></p> <p><i>Living in a Glass House.</i> 5-book series.</p> <p><i>Columbia River Power.</i></p> <p><i>MOD-2.</i> Describes large wind project.</p> <p><i>Wind Power.</i> Describes small wind project.</p> <p><i>Pump Testing.</i></p> <p><i>Weatherization.</i></p> <p><i>Living Laboratory.</i> On BPA conservation experiments at Midway, Wash.</p> <p><i>Firm, Secondary, and Surplus Hydropower.</i></p> <p>To obtain publications:</p> <p>Publications distributed free of charge to persons in BPA service area (western Montana).</p>	<p>Films:</p> <p><i>Great River.</i> 29 min. Covers the multipurpose development of the Columbia River Basin with emphasis on power, flood control, irrigation, reclamation, and environment. Includes scenes of Hungry Horse and Libby Dams, and the Anaconda Co.'s aluminum plant at Columbia Falls, Mont.</p> <p><i>Intertie.</i> 29 min. Tells the story of the Pacific Northwest-Pacific Southwest Intertie, which consists of several extra-high voltage lines, each about 800 miles long. It is the largest single transmission program ever undertaken in the U.S.</p> <p><i>The World Behind Your Light Switch.</i> 28 min. Describes BPA crews that work round the clock in every kind of weather—on the ground, in the air, and beneath the sea.</p> <p><i>Power for a Nation.</i> 28 min. Traces early development of electric power in the U.S. and describes the role of the federal government in producing a portion of that power. Features many Northwest scenes, including Hungry Horse and Libby Dams.</p>

BONNEVILLE POWER ADMINISTRATION (BPA) (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
			<p><i>The Hottest Show on Earth.</i> 28 min. Outlines the current energy situation. Explains how insulation can ease the pressure on our dwindling fuel resources.</p> <p><i>Energy/America.</i> 20 min. Discusses such sources of energy as coal, oil, and shale. Also examines geothermal, solar, wind, and atomic power.</p> <p><i>Atomic Power Today-Service with Safety.</i> Describes the major steps in designing and constructing a nuclear power plant.</p> <p><i>Saving Tomorrow's Resources.</i> 22 min. Discusses the future of 1200 KV transmission lines in supplying electricity to the Northwest. Shows how escalating energy demands require new solutions to the problem of getting power to the consumer.</p> <p>Exhibits: Available. Contact agency for description.</p> <p>To obtain materials: Films available upon request. Schedule in advance during school year.</p>

CENTER FOR INNOVATION, INC. (CFI)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Center for Innovation is a full-service assistance program for inventors and small business people. The Center provides clients with the technical, manufacturing, engineering, marketing, and financial support needed to develop inventions and businesses.</p> <p>Contact:</p> <p>John C. Podobnik Vice President P. O. Box 3809 Butte, MT 59702 494-6255</p>	<p>Offers development assistance for innovative products and processes through:</p> <ul style="list-style-type: none"> • patent and trademark searches; • technical and marketing evaluations; • assistance with publicity; • development of marketing and sales approaches; and • financial assistance in the form of grants or subcontracts. CFI may also secure government or private sector support for projects which show technical promise and economic potential. 	<p><i>CFI News.</i> Bimonthly newsletter.</p> <p><i>Products for Licensing.</i> Booklet. Distribution limited.</p> <p><i>CFI Brochure.</i></p> <p>To obtain publications: Contact agency.</p>	<p>Slides:</p> <p>Presentation on CFI. Distribution limited.</p> <p>Speakers:</p> <p>John Podobnik Leo Belanger Dan Engellent</p> <p>To obtain materials or speakers: Contact agency.</p>

CONTINENTAL OIL COMPANY

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Continental Oil is a company that processes and markets energy resources and explores for new fuel sources.</p> <p>Contact: Joan Watts Manager, Services Division Marketing P.O. Box 2548 Billings, MT 59103 252-3841</p>	<p>Provides information on a variety of energy resources.</p>		<p>Speakers: 14 speakers available in Montana for high school, vo-tech, and college classes, and the general public.</p> <p>To obtain speakers: Contact agency.</p>

ENERGY AND MAN'S ENVIRONMENT (EME)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Energy and Man's Environment is a nonprofit organization whose goal is to increase public knowledge about energy. EME develops instructional materials for use in public schools, provides in-service training on energy issues for educators, and provides speakers and workshops on energy to the general public.</p> <p>Contact:</p> <p>Gary D. Swant State Coordinator 113 North Frontage Rd. Deer Lodge, MT 59722 846-2451</p>	<p>Assists in teaching about energy by providing educators or the general public with</p> <ul style="list-style-type: none"> • speakers, • tours, and • hands-on activities. <p>Conducts a summer workshop on the Montana coal development issue.</p>	<p><i>Adventures of Mini-Volts and Wastey Watts.</i></p> <p><i>Conservation of Energy Activity Guide.</i></p> <p><i>Energy E.Q. Test</i></p> <p><i>Energy Glossary.</i></p> <p><i>Energy Conservation Corps.</i></p> <p>Energy Lesson Plan Notebooks K-6.</p> <p>Grades 7-12 Subject Matter Lesson Plan Packets.</p> <p>Captain Energy Kits.</p> <p>To obtain publications:</p> <p>Materials available for purchase from agency. They are free of charge as part of school workshops.</p>	<p>Posters:</p> <p>Energy Eye Chart Poster.</p> <p>Energy Calendar.</p> <p>Speakers:</p> <p>Available for curriculum workshop.</p> <p>To obtain materials or speakers:</p> <p>Contact agency.</p>

EXXON COMPANY, U.S.A.

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Exxon is a corporation that processes and markets energy resources and explores for new fuel sources.</p> <p>Contact:</p> <p>J.H. Burch Box 2514 Billings, MT 59103 252-1331</p>	<p>Provides information on a variety of energy resources.</p>	<p><i>Exxon's Energy Outlook, 1978-1990.</i></p> <p><i>Exxon Company, U.S.A.'s Energy Outlook 1977-1990.</i> 1977.</p> <p><i>Developing the Many Sources of Energy.</i> 1977.</p> <p><i>Tomorrow's Energy... Today's Challenge.</i> Remarks by L.G. Rawl, Executive Vice President, Exxon Co.</p> <p><i>World Energy Outlook.</i> 1977.</p> <p><i>Middle East Oil.</i> 1976.</p> <p><i>The Offshore Search for Oil and Gas.</i> 1975.</p> <p><i>Technology in the Search for Energy.</i> 1976.</p> <p><i>Does Oil Affect the Marine Environment?</i></p> <p><i>Exxon and the Environment.</i> 1975.</p> <p><i>Environmental Conservation.</i> Progress report. 1977-78.</p> <p><i>The Case for Diversification.</i> Submission of Exxon Co., USA, before the Senate Judiciary Subcommittee on Antitrust and Monopoly.</p> <p><i>Energy and Economic Progress.</i> Remarks by Randall Meyer, President, Exxon Co.</p> <p><i>The Charges and the Facts.</i> 1976.</p> <p><i>OPEC: Questions and Answers.</i> 1976.</p>	<p>Films:</p> <p><i>A Funny Thing Happened on the Way to the Gas Station.</i> Story of a 13-year-old boy's journey following the production of gasoline from a well in Texas to a service station in New Jersey.</p> <p><i>World Beneath the Sea.</i> Man's search for oil and gas off the coasts of the U.S. Describes how offshore drilling has developed. Shows various types of platforms used today.</p> <p><i>Three E's.</i> Describes the complex relationship between energy, economics, and environment.</p> <p><i>Faces of Energy.</i> Documentary. Tells the story of the petroleum industry through individual portraits of workers.</p> <p><i>Nuclear Energy: Power for Today and Tomorrow.</i> Describes Exxon's part in the search for mining, milling, and fabrication of nuclear fuel for power generation.</p>

EXXON COMPANY, U.S.A. (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Are the Major Oil Firms Propping up OPEC?</i></p> <p><i>Mickey Mouse and Goofy Explore Energy.</i> Comic book.</p> <p><i>Mickey Mouse and Goofy Explore Energy Conservation.</i> Comic book.</p> <p>To obtain publications: Contact agency. Comic books should be ordered 30 days in advance.</p>	<p>Speakers: J.H. Burch R.E. Hanson</p> <p>Speakers available on all forms of energy, including oil, gas, nuclear, solar, wind, geothermal, coal, and tidal. Exploration, production, transportation, refining, and marketing aspects are covered along with economic and governmental concerns. Talks are tailored to the group.</p> <p>To obtain films or speakers: Contact agency.</p>

GREAT FALLS GAS COMPANY

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Great Falls Gas Company is a utility company distributing natural gas to the Great Falls area.</p> <p>Contact: Graydon Hudspeth 725 Central Box 2229 Great Falls, MT 59403 761-7100</p>	<p>Provides energy audits to customers to help reduce fuel consumption.</p> <p>Provides workshops and technical assistance to builders, lenders, and appliance dealers.</p> <p>Provides presentations to Great Falls schools and consumer groups.</p>	<p><i>Natural Gas Safety.</i></p> <p><i>Gas: The Future Belongs to the Efficient.</i> Advice on appliance selection.</p> <p>To obtain publications: Publications free in reasonable quantities. Other publications for teachers and schools in Great Falls available from: AGA Educational Services 1515 Wilson Blvd. Arlington, VA 22209 Write for free catalogue.</p>	<p>Filmstrip: <i>Natural Gas: The Science Behind the Burner.</i></p> <p>Films: <i>Natural Gas in the 80's.</i> Several ethnic cooking films.</p> <p>Junior High—High School Presentations: <i>Natural Gas Production—an overview.</i> <i>Energy Conservation—an overview.</i> <i>Window Treatments for Energy Conservation.</i> <i>Selection and Use of Appliances with an Eye to Energy Conservation.</i> <i>Alternative Sources of Methane/The Future of Natural Gas.</i> <i>Gas Barbecuing—Outdoor Grilling at Its Finest.</i> <i>Gas Cooking Demonstrations.</i> Varies according to school level. <i>The Gas Cooking Advantage.</i> Designed for schools without gas ranges.</p>

GREAT FALLS GAS COMPANY (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
			<p><i>Principles of Gas Combustion.</i> For students with an understanding of chemistry equations.</p> <p><i>Architectural Considerations for Heating and Air Conditioning.</i></p> <p><i>Cooking for Profit.</i> On commercial food service.</p> <p>Elementary School Presentations:</p> <p><i>Natural Gas Serves Our Community—Gas Supply from Well to Burner.</i></p> <p><i>Energy Conservation—What You Can Do.</i></p> <p><i>Fossil Fuels—History, Uses, Future.</i></p> <p>Variations of junior high and high school topics also available at elementary levels.</p> <p>To obtain films or speakers: Contact agency. Prescheduling required for film and filmstrip.</p>

MONTANA ASSOCIATED UTILITIES, INC.

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Montana Associated Utilities, Inc. is an association of rural electric cooperatives. It provides job and safety training as well as educational, advertising, and joint purchasing services to its members. It also lobbies for the group's interests.</p> <p>Contact:</p> <p>Riley Wm. Childers P.O. Box 1306 Great Falls, MT 59403 454-1521</p>	<p>Provides energy conservation information and weatherization assistance.</p> <p>Performs energy audits.</p> <p>These services vary by local group. See Appendix D for listing of cooperatives.</p>	<p><i>Rural Montana.</i> Monthly magazine for member cooperatives.</p> <p>Other publications available.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Audiovisual Materials:</p> <p>Available.</p> <p>To obtain materials:</p> <p>Contact agency.</p>

MONTANA BUREAU OF MINES AND GEOLOGY

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Bureau of Mines and Geology is a department of the Montana College of Mineral Science and Technology. It promotes the use of mineral resources through the investigation of their geology, methods of production, and economics. It also disseminates information through publications and replies to individual inquiries.</p> <p>Contact:</p> <p>S.L. GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p>Films:</p> <p>All films are 16mm with sound and color unless otherwise stated.</p> <p>Coal:</p> <p><i>Combustion Engineering.</i> Grades 7-12, adult. 14 min. Presents new technologies, equipment, and jobs resulting from an increased use of coal as an energy resource.</p> <p><i>Coal to Kilowatt.</i> Grades 7-12, adult. 10 min. Takes coal from ground to generating plants. Film includes strip mining process, shipment of coal to generating plant, and reclaiming of mined land.</p> <p><i>Colstrip: A Reservoir of Energy.</i> Grades 7-12, adult. 15 min. Shows Colstrip operations from coal mining to electricity generation to town development.</p> <p>Electricity:</p> <p><i>Homemade Electricity.</i> Grades 7-12. 20 min. Follows the flow of electricity through common electrical devices.</p> <p><i>Wonder-filled Age of Electricity.</i> Grades 3-6. 28 min. Tommy, age 8, learns about the use of electricity through a tour of stores, factories, and a generating plant.</p> <p><i>What Time is the Power on Today?</i> Grades 7-12, adult. 28 min. Examines the economic and social effects that electricity curtailment has on a community. Also presents a Public Service Commission hearing.</p> <p><i>Electricity: The Way It Works.</i> Grades 7-12, adult. 15 min. Shows the production, distribution, and uses of energy.</p> <p><i>Electricity by Magnetism.</i> Grades 7-12, adult. 15 min. Shows a coal-fired generating plant and explains how electricity is generated.</p> <p><i>An Electric Talking Picture.</i> Grades 4-9. 13 min. Cartoon format. Gives a brief history of energy, an explanation of electrical production, and tips on energy conservation.</p>

MONTANA POWER COMPANY (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Electricity—the Instant Energy.</i> Grades 7-12. 15 min. Gives a step-by-step explanation of how electricity is generated, transmitted, and distributed. Explains how energy sources and conservation programs are being developed to meet America's future energy needs.</p> <p><i>Mr. Edison's Dilemma.</i> Grades 10-12. 22 min. Designed for high school discussion of economic issues facing the electric utility industry. Illustrates the production, distribution, end-use, costs, and capital requirements of electric services.</p> <p>Electrical Safety:</p> <p><i>I'm No Fool With Electricity.</i> Grades K-4. 8 min. Jiminy Cricket uses games and songs to teach basic rules of electrical safety.</p> <p><i>Stay Clear, Stay Alive.</i> Grades 6-12, adult. 20 min. Gives advice for safe outdoor recreation in areas with electric cables, wires, transmission towers, transformers, or substations.</p> <p>Energy:</p> <p><i>Search for New Energy.</i> Grades 7-12. 28 min. Part one deals with efforts to solve the energy crisis by discovering and developing new sources of fuel. Part two examines new sources of power as well as windmills, tidal power, and atmospheric electricity.</p> <p><i>Energy: New Sources.</i> Grades 7-12. 20 min. Briefly surveys some potential sources of energy, such as wind, tides, or the burning of waste material. Examines in detail geothermal and solar energy and atomic fusion.</p> <p><i>A Question of Balance.</i> Grades 9-12. 28 min. Examines the public's need for more energy and the problems this creates for electric utilities.</p> <p><i>Energy Management in the Home Saves Money.</i> Explores three energy-management areas for residential consumers: insulating and weatherizing, proper care and use of heating equipment, and general conservation measures.</p>

MONTANA POWER COMPANY (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Challenge in the Air.</i> Grades 7-12, adult. 23 min. Shows methods of controlling industrial emissions and measuring air quality. Explains why young people should be concerned and encourages citizen participation.</p> <p><i>Toast.</i> Grades 5-12. 12 min. Provides an overview of energy consumption in the preparation and marketing of food. Flowing images set to music illustrate the concept of net energy gain.</p> <p><i>Energy: Choices, Options, Decisions.</i> Grades 9-12. 14 min. An overview of options for electrical generation, including coal, oil, and processed refuse.</p> <p><i>Geothermal Energy—Power from the Earth.</i> Grades 7-12, adult. 13 min. Describes production of electricity from underground heat.</p> <p>History and Science:</p> <p><i>Steinmetz—The Man Who Made Lightning.</i> Grades 7-12. 10 min. Life of the electrical engineer Steinmetz, who rose above handicaps to lay the foundation for modern electric systems. His studies of alternating current anticipated the application of the computer to power systems. (Black and white.)</p> <p>Natural Gas:</p> <p><i>History of Natural Gas.</i> Grades 1-5. 7½ min. Cartoon film shows how natural gas deposits are found and how natural gas is used.</p> <p>Solar:</p> <p><i>Solar Energy Options.</i> Grades 7-12. 13½ min. Covers the technological and economic prospects for the development of solar energy. Shows its present and future uses in dwellings, in industry, on farms, and as a source of electrical energy. (Accompanied by teacher's guide.)</p>

MONTANA POWER COMPANY (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p>Wind:</p> <p><i>Electrical Power Story—Wind Power.</i> Grades 8-12, adult. 18 min. Shows experiments in wind-rich areas, examines wind "prospecting," turbine design and economics, noise pollution, and the aesthetics of modern wind turbines.</p> <p>Classroom Presentations:</p> <p><i>I'm No Fool With Electricity.</i> Grades K-3. 30 min. Jiminy Cricket of Walt Disney Productions demonstrates the right and wrong ways of using electricity. Students watch a film, play poster games, and are given safety booklets.</p> <p><i>Captain Power.</i> Grade 3. 30 min. A personal visit by "Captain Power," energy expert, starts students toward an understanding of energy uses, costs, sources, and conservation.</p> <p><i>The Case of the Missing Kilowatt.</i> Grades 4-6. 45 min. In "The Great Energy Caper," students become energy detectives by tracking down energy use in their own homes.</p> <p><i>Think Hot.</i> Grade 6. 50 min. In this classroom demonstration and film, children are shown why they should "think hot" around electricity. Program emphasizes principles of electrical safety.</p> <p><i>Pie-in-the-Sky.</i> Grades 7-9. 50 min. The interrelationship between the food system and energy demand is demonstrated through games and worksheets.</p> <p><i>Watt's Happening in Your Home?</i> Grades 7-12, adult. 60 min. Through the use of a small-scale house, students learn about energy use in the home and where to look for energy "leaks."</p> <p><i>So You're Moving to a New Earth.</i> Grades 7-9. 60 min. In this presentation, the class is "transported" to a new earth and must choose which appliances to take with them. Students learn about wattage requirements of appliances, and their own attitudes toward the value of various appliances.</p>

MONTANA POWER COMPANY (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Energy for Today and Tomorrow.</i> (Renewable Energy Series.) Grades 10-12, adult. 60 min. Through this series of three classroom presentations, <i>Solar Energy</i>, <i>Wind</i>, and <i>Geothermal Energy</i>, students explore possibilities and problems involved in the development of renewable energy sources.</p> <p><i>The Geologist's Dilemma.</i> Grades 7-12, adult. 60 min. Simulation game illustrates resource scarcity, present and future cost of energy, and reasons for resource development.</p> <p><i>Coal to Kilowatt.</i> Grades 10-12, adult. 60 min. Presentation includes film showing the conversion of coal to kilowatts, using Colstrip plants and mines as examples.</p> <p>Additional Teacher Resources:</p> <p>Electric Meters: Small, clock-type meter faces mounted on wooden blocks allow students to practice reading meters.</p> <p>Coal Samples: Packaged coal samples come with a description of how much coal it takes to generate electricity for several common appliances.</p> <p>Water Restrictors: Water flow restrictors for showerheads and faucets.</p> <p>Tours:</p> <p>Hydroelectric Plants:</p> <p>Helena area: Holter Dam</p> <p>Great Falls area: Ryan, Black Eagle, and Rainbow Dams.</p> <p>Red Lodge/Columbus area: Mystic Lake Power House</p> <p>Missoula area: Milltown Dam.</p>

Pamphlet describes how to reach the generator and lists facts and figures about the generator.</p> <p>Dispatch Center:</p> <p>The Dispatch Center in Butte is the central monitoring site for power produced by dams and steam plants on the Montana Power system. The Center offers a fascinating look at the inner workings of a utility distribution system.</p> <p>To obtain materials or speakers:</p> <p>Classroom Presentations: Arrangements should be made two weeks in advance.</p> <p>Films: Films reserved on a first-come, first-served basis. Requests should be made one month in advance. Loans is for five days. Film should be returned insured and postage paid (library rate).</p> <p>Tours: Reservations should be made three weeks in advance.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Public Library Film Service is a film loan program which serves public libraries throughout the state.</p> <p>Contact:</p> <p>Nancy Dahy Reference Librarian Butte/Silver Bow Public Library 106 W. Broadway Butte, MT 59701 723-8262</p>	<p>Loans energy films.</p>	<p>Films:</p> <p>Films are 16mm with sound and color.</p> <p>Elementary Films:</p> <p><i>Energy.</i> Oxford Films, 1974. 10 min. Illustrates the degree to which our modern lifestyle is dependent on energy from natural resources. Describes plans for expanded development of nuclear, geothermal, and solar energy.</p> <p><i>Energy: A First Film.</i> BFA Educational Media, 1970. 8 min. Discusses different forms of energy and how one form can be converted into another, pointing out that most of the energy we use comes from the sun.</p> <p><i>Energy and Living Things.</i> Centron Films, 1971. 10½ min. Examines the nature of matter and energy and demonstrates how and why both are essential to all life forms. Questions man's use of remaining fossil fuel energy reserves.</p> <p><i>Energy Monsters: How to Starve Them.</i> BFA Educational Media, 1978. 12½ min. Shows two youngsters deciding to save energy in their home and searching the house for ways to make it energy efficient.</p> <p><i>Learning About Solar Energy.</i> ACI Films, 1975. 12 min. Children find ways to heat water for an outdoor shower and cook a hot dog in a miniature solar furnace.</p> <p><i>Toast.</i> Bullfrog Films, 1974. 12 min. Shows energy consumption in the preparation and marketing of food. Illustrates that our daily toast, an end product of an intensive energy process, is hardly a bargain at present energy costs.</p> <p><i>More.</i> Macmillan Films, Inc., 1973. 3 min. Animated. Portrays our national syndrome of conspicuous consumption. "More," demands man, until the inevitable climax.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p>Junior High to Adult Films:</p> <p><i>E. F. Schumacher—As If People Mattered.</i> Bullfrog Films, Inc., 1978. 16 min. A record of a Schumacher speech in Montana. Recommends that we devise an economy in which people consume goods from their locale.</p> <p><i>Energy: A Matter of Choices.</i> Encyclopedia Britannica, 1973. 22 min. Surveys the attitudes and technological forces on which our patterns of energy consumption are based, and studies causes of and responses to the energy crisis.</p> <p><i>Energy: A National Issue.</i> Aims Instructional Media Services, 1977. 27 min. The Flintstones explain the causes of a dwindling energy supply and some of the problems of dwindling supply. Charlton Heston narrates.</p> <p><i>Energy for the Future.</i> Encyclopedia Britannica, 1974. 17 min. Examines energy alternatives for the future, including processed coal, oil, geothermal heat, nuclear fission and fusion, wind, and solar heat.</p> <p><i>Energy from the Day Star.</i> Essentia Films, 1978. 22 min. A rediscovery of our connection with nature. Argues that solar energy is a necessity for the future.</p> <p><i>Energy: Less is More.</i> Churchill Films, 1974. 18 min. An investigation of the need to slow energy consumption and ways this can be done.</p> <p><i>Energy: New Sources.</i> Churchill Films, 1974. 20 min. Describes the potential and limits of new technologies, including solar, fusion, and geothermal. Argues for developing a variety of options.</p> <p><i>Energy: The Dilemma.</i> Churchill Films, 1974. 20 min. Examines energy growth patterns: past, present, and future. Explores problems of supply and demand, depletion of fossil fuels, our dependency on them, and resultant economic and social problems.</p> <p><i>Energy: The Nuclear Alternative.</i> Churchill Films 1974. 20 min. Explores fission power, how it works, and the controversies over safety and radioactive wastes.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Energy: The Problems and the Future.</i> National Geographic Society, 1978. 23 min. Discusses solar, geyser, tidal, and wind power as solutions to the exhaustion of nonrenewable fuels.</p> <p><i>The Energy Game.</i> Federal Energy Administration, 1973. 16 min. Promotes home insulation campaigns, and recommends the use of the <i>Home Energy Savers Handbook</i>. Suitable for energy conservation workshops and civic meetings.</p> <p><i>Energy, the Great Escape.</i> Federal Energy Administration and the South Dakota Energy Office, 1974. 20 min. Explains types of fossil fuel heating systems and maintenance procedures for them. Also deals with the weatherization of residences.</p> <p><i>Featherfoot.</i> U.S. Post Office, 1977. 30 min. Explains driving techniques that save fuel. Designed for use by post office employees but suitable for many groups.</p> <p><i>The Food Cycle and Food Chains.</i> Coronet Films, 1963. 10½ min. Describes food chains and the unending pattern of life, growth, and decay known as the food cycle.</p> <p><i>Have We Stayed Too Long at the Fair.</i> Screenscope, Inc., 1978. 25 min. Portrays U.S. dependence on energy by using the hard winter of 1976-1977 as an example of what can happen when gas, oil, and electricity cannot be moved when and where needed.</p> <p><i>Introduction to Electricity.</i> Coronet Films, 1971. 11 min. Presents fundamental concepts of electrical energy, electrical resistance, and factors affecting variations in each. Clarifies terms such as electrons, voltage, and parallel and series wiring.</p> <p><i>Montana Coal.</i> Tractor and Equipment Company of Billings. 15 min. Shows strip mining and reclamation in eastern Montana, with emphasis on jobs for Montanans because of coal mining.</p> <p><i>More.</i> Macmillan Films, Inc., 1973. 3 min. See listing under "Elementary Films."</p>

MONTANA PUBLIC LIBRARY FILM SERVICE (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Saving Energy at Home.</i> Ramsgate Films, 1975. 13 min. Identifies major sources of home energy use, and provides tips on how the average American household can cut energy bills in half.</p> <p><i>Solar Energy: To Capture the Power of Sun and Tide.</i> ACI Films, 1975. 21 min. Shows the use of tidal power and a sun furnace in France.</p> <p><i>Toast.</i> Bullfrog Films, 1974. 12 min. See listing under "Elementary Films."</p> <p><i>Treasures of the Earth.</i> Churchill Films, 1974. 14½ min. Describes, largely in animation, how minerals, oil, and coal are deposited in the earth's crust. Film also deals with the scarcity of these products, and the growing difficulty in their extraction.</p> <p><i>Up the Power Curve.</i> Federal Energy Administration, 1976. 10 min. Shows the practicality of energy conservation. Covers a wide range of energy saving ideas and their potential dollar savings.</p> <p><i>Western Coal: An American Dilemma.</i> Churchill Films, 1975. 24 min. Deals with the implications of coal development in Montana, Wyoming, and North Dakota. Shows scenes of Colstrip and Forsyth.</p> <p>Senior High to Adult Films:</p> <p><i>Dawn of the Solar Age: Solar Energy.</i> Time-Life Films, 1972. 29 min. Points out that the sun is capable of supplying 100,000 times the total global energy requirements and is free, but solar collectors and equipment are expensive. Can the sun be efficiently harnessed?</p> <p><i>Dawn of the Solar Age: Wind and Water Energy.</i> Time-Life Films, 1977. 25 min. Discusses wind and water power as products of solar energy. Experiments in both these areas are discussed in this British film.</p> <p><i>Energy Crunch—Part One: The Bottom of the Oil Barrel.</i> Time-Life Films, 1973. 34 min. Explores some of the reasons for shortages of oil and possibilities of finding new sources—including oil shale and coal conversion, and drilling in the North Sea and Alaska's North Slope.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Energy Crunch—Part Two: The Nuclear Dilemma.</i> Time-Life Films, 1973. 40 min. Gives a brief history of nuclear power. Examines pros and cons of reactors in the U.S. and Great Britain. Describes the breeder reactor.</p> <p><i>Energy Crunch—Part Three: The Sunbeam Solution.</i> Time-Life Films, 1973. 38 min. Focuses on solar power, but also looks at wind and underground hot water. Closes with an examination of ways to conserve energy.</p> <p><i>Nuclear Power: Pro and Con, Parts 1 and 2.</i> McGraw-Hill Films, 1977. 50 min. Investigates the benefits and disadvantages of nuclear power. Discusses past uses and asks if future use of nuclear energy is risky.</p> <p><i>The Other Way.</i> Time-Life Films, 1974. 26 min. Economist E.F. Schumacher looks at the energy crisis with its related problems of fuel use, land use, and manpower use, and suggests solutions.</p> <p><i>Running on Empty—The Fuel Economy Challenge.</i> U.S. Department of Energy, 1978. 27 min. Presents a special 90-mile road rally, introducing a variety of methods that average drivers in average cars can use to achieve maximum savings in gasoline and money.</p> <p>To obtain films: Fee of \$2.00 for films running 15 minutes or under, \$3.00 for films running over 15 minutes. Reservations should be made at least two weeks in advance.</p>

<p>The Department of Agricultural and Industrial Education is that branch of Montana State University which prepares industrial arts and vocational agriculture teachers for Montana and the region.</p> <p>Contact: Doug Polette Montana State University Bozeman, MT 59717 994-3201</p>	<p>Offers energy education programs that use a hands-on approach to understanding power sources and uses.</p>		<p>Slide Presentation: Topic: wood stoves.</p> <p>To obtain speakers: Contact agency</p>

MONTANA STATE UNIVERSITY

Department of Agricultural Engineering

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Agricultural Engineering Department is that branch of Montana State University which conducts teaching, research, and extension work in agricultural engineering.</p> <p>Contact: William Larsen 409 Cobleigh Hall Bozeman, MT 59717 994-2275</p>	<p>Conducts applied research and provides information on energy-related agricultural topics, such as:</p> <ul style="list-style-type: none"> • geothermal green-houses, • tractors and tillage energy, • energy utilization for irrigation, • vegetable oil diesel fuel, and • biomass energy conversion. 	<p>Research reports on energy-related agricultural topics.</p> <p>To obtain publications: Contact agency.</p>	

MONTANA STATE UNIVERSITY
Department of Animal and Range Science
Reclamation Research Unit

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Reclamation Research Unit is a subdivision of the Department of Animal and Range Science. Its function is to conduct research and teaching in the field of mined land rehabilitation.</p> <p>Contact:</p> <p>Frank Munshower Montana State University Bozeman, MT 59717 994-4821</p>	<p>Offers an M.S. degree in Land Rehabilitation.</p> <p>Conducts a research program in mined land rehabilitation.</p>	<p>Publications and papers on reclamation research.</p> <p>To obtain publications:</p> <p>Most new publications available free on request. Older publications will be reproduced at requester's expense. Contact agency.</p>	

MONTANA STATE UNIVERSITY

Montana Water Resources Research Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Water Resources Research Center is a division of Montana State University which promotes research in water management and development. It works with existing agencies on the federal, state, and local level in planning and coordinating water resource management programs. It also has an educational outreach program to increase public awareness of water resources management.</p> <p>Contact:</p> <p>William A. Hunt Interim Director Montana State University Bozeman, MT 59717 994-2891</p>	<p>Provides information on:</p> <ul style="list-style-type: none"> • small hydroelectric power generating systems: site feasibility, equipment selection, and evaluation procedures; • Water quality and quantity evaluation procedures; • techniques for considering alternative water resources for steam-generating plants and synthetic fuel development; and • energy requirements for irrigation, municipal, and industrial uses. <p>Conducts studies on specific problems for federal, state, local, and private agencies and individuals.</p> <p>Conducts workshops and seminars on water management.</p>	<p>Publications on water resources.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Speakers:</p> <p>Available for selected topics.</p> <p>Display/Exhibits:</p> <p>Water management simulator for use in workshops and seminars.</p> <p>To obtain speakers or materials:</p> <p>Contact agency.</p>

MONTANA STATE UNIVERSITY

Science-Math Resource Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Science-Math Resource Center is a resource center for public school teachers in Montana and for education majors on the MSU campus.</p> <p>Contact: Jade Hanson Montana State University Bozeman, MT 59717 994-4912</p>	<p>Conducts citizens' workshops on energy and the environment. These include slides on energy problems, use of the energy-environment simulator, and discussion.</p>	<p>Energy curriculum materials, including publications from Energy and Man's Environment and from the National Science Teachers' Association.</p> <p>To obtain publications:</p> <p>Publications available to Montana public school teachers or education majors at MSU. Contact agency.</p>	<p>Sound Filmstrips:</p> <p><i>This World of Energy.</i> National Geographic.</p> <p><i>Harnessing the Sun.</i> National Geographic.</p> <p>Speakers:</p> <p>Larry Kirkpatrick Associate Professor of Physics</p> <p>Available for a 1-hour slide-talk presentation: <i>The Epoch of Fossil Fuels: A story of Exponential Growth.</i></p> <p>Workshops:</p> <p>Available. Topic: energy and the environment.</p> <p>To obtain materials or speakers:</p> <p>Available to any public school or open meeting of a citizens' group not charging admission. Contact agency.</p>

NATIONAL CENTER FOR APPROPRIATE TECHNOLOGY (NCAT)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The National Center for Appropriate Technology is an organization which conducts scientific and technological research in the area of energy-efficiency, and promotes application of appropriate technology in low-income communities.</p> <p>Contact:</p> <p>John Sesso P.O. Box 3838 Butte, MT 59701 494-4577 (Business Office) 494-4572 (Grants Information)</p>	<p>Provides information, speakers, and technical assistance in the areas of:</p> <ul style="list-style-type: none"> • power generation from sun, wind, and water; • food production through ecological farming and gardening; and • recycling wastes. <p>Awards small grants for application of appropriate technology in low-income communities.</p>	<p><i>Connections: A 5th-6th Grade Curriculum in A.T. Introduction to Alcohol Fuels.</i> 1981.</p> <p><i>Caulking: The Push Method.</i></p> <p><i>Thermostat Control Timer.</i></p> <p><i>How to Detect Air Leaks.</i></p> <p><i>Caulking vs. Weatherstripping.</i></p> <p><i>How to Select a Metal Storm Window.</i></p> <p><i>How to Insulate Hot Water Tanks.</i></p> <p><i>Superinsulation: Housing Trends for the 80's.</i></p> <p><i>The Caterpillar Cold Frame.</i></p> <p><i>Low-Cost Passive Solar Greenhouses Manual.</i></p> <p><i>Micro-Hydro Power.</i></p> <p><i>Getting Warm Without Getting Burned: Common Sense About Woodstoves.</i></p> <p><i>The Solar Survey.</i></p> <p><i>Natural Cooling for Homes.</i></p> <p><i>Fuel Alcohol Production: Survey of Systems.</i></p> <p><i>Making More Fuel Alcohol: Fermentation.</i></p> <p><i>Compost Toilets: Guide for Owners-Builders.</i></p> <p><i>Automatic Flue Dampers.</i></p> <p>To obtain publications:</p> <p>Listing partial. For further information on available titles and prices, contact agency.</p>	<p>Speakers:</p> <p>Available.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

NEW WESTERN ENERGY SHOW (NWES)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The New Western Energy Show, a branch of AERO, is an organization dedicated to public education about renewable energy. The current focus of its efforts is on the children and schools of Montana.</p> <p>Contact:</p> <p>Robin Leenhouts 601 Power Block Helena, MT 59601 443-7272</p>	<p>Presents puppet shows with energy and environmental themes. Offers energy workshops for teachers.</p> <p>Offers technical workshops on construction of solar collectors, greenhouses, ovens, etc.</p> <p>Offers classes and lectures.</p> <p>Maintains a library on energy-related topics.</p> <p>Provides consulting services for teachers and the general public.</p>	<p><i>Get Your Hands on Energy.</i> \$4.50. Activity guide for energy education.</p> <p><i>The Energy Show.</i> \$2.75. Script for theatre show using six actors.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Film:</p> <p><i>The New Western Energy Show.</i> 25 min. Documentary.</p> <p>Displays:</p> <p>Renewable energy exhibits.</p> <p>Speakers:</p> <p>Available.</p> <p>To obtain materials or speakers:</p> <p>Contact agency to arrange for speakers or display rental. Documentary available from agency or Bullfrog Films, Oley, Pa.</p>

NORTHWEST POWER PLANNING COUNCIL

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Northwest Power Planning Council, created by federal legislation and operated by the state, is a group charged with developing a 20-year, comprehensive, electrical energy plan for the Pacific Northwest by April of 1983. It is comprised of two representatives each from the states of Montana, Washington, Idaho, and Oregon.</p> <p>Contact:</p> <p>Bernd Hoffman Northwest Power Planning Council Montana Office Capitol Station Helena, MT 59620 449-3952</p>	<p>Assesses future energy requirements of the Northwest.</p> <p>Examines possible power sources, including renewable energy resources.</p> <p>Examines import of various power generation systems on the environment.</p> <p>Based on above studies, develops a comprehensive energy plan for the Pacific Northwest.</p>		<p>Speakers:</p> <p>Available.</p> <p>Topic: The Northwest Power Planning Act and its potential ramifications for Montana and the Northwest.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

OFFICE OF PUBLIC INSTRUCTION

Audiovisual Library

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/ SPEAKERS/DISPLAYS
<p>The State Audiovisual Library is a division of the Office of Public Instruction that maintains a collection of 16mm educational films available for rental to schools and other educational groups in Montana.</p> <p>Contact:</p> <p>Ed Weiss Supervisor 1430 Dodge Ave. Helena, MT 59620 449-3170</p>	<p>Loans energy films.</p>	<p>Films:</p> <p><i>The Age of Steam.</i> 6570</p> <p><i>American Frontier.</i> 5570</p> <p><i>Atomic Power Production.</i> 5767</p> <p><i>Barrel Number One.</i> 5569</p> <p><i>Black Coal, Red Power, Parts I and II</i> 8633</p> <p><i>Coal: A Source of Energy.</i> 8390</p> <p><i>Colorado River: Water and Power for the Southwest.</i> 6724</p> <p><i>Conserving Our Mineral Resources.</i> 6701</p> <p><i>Electricity and How It Is Made.</i> 5884</p> <p><i>Electricity Works for Us.</i> 5682</p> <p><i>Electricity: Production.</i> 5851</p> <p><i>Electrons at Work.</i> 5197</p> <p><i>Energy.</i> 7887</p> <p><i>Energy and Models.</i> 7440</p> <p><i>Energy and Power: A First Look.</i> 5640</p> <p><i>Energy Crisis.</i> 7952</p> <p><i>Energy Sources of the Future.</i> 8544</p> <p><i>Energy: A First Film.</i> 7581</p> <p><i>Energy: Less Is More.</i> 8271</p> <p><i>Energy: New Sources.</i> 8270</p> <p><i>Energy: The Dilemma.</i> 8268</p>

U.S. DEPARTMENT OF AGRICULTURE
Farmers Home Administration

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Farmers Home Administration (FmHA) is a credit agency of the United States Department of Agriculture which serves rural and small town residents. FmHA administers several loan programs: for the purchase or operation of farms, to provide new employment and business opportunities, to acquire homes, and to upgrade the standard of living of residents of small towns or open country.</p> <p>Contact:</p> <p>Arthur E. Lund State Director Farmers Home Administration P.O. Box 850 Bozeman, MT 59715 587-5271, Ext. 4221</p>	<p>Provides loans for the purchase of solar-heated homes to qualified applicants.</p> <p>Provides loans for small hydro projects to farmers.</p>	<p>Pamphlets available on loan programs.</p> <p>To obtain publications: Contact agency.</p>	

U.S. DEPARTMENT OF ENERGY

Technical Information Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
<p>The Technical Information Center is the educational outreach branch of the Department of Energy.</p> <p>Contact:</p> <p>Doris Brooks P.O. Box 62 Oakridge, TN 37830</p>	<p>Provides information on a variety of energy sources to teachers and consumers.</p>	<p>Pamphlets:</p> <p><i>Energy and You.</i> 1979. 6 pp.</p> <p><i>Energy From the Winds.</i> 1979. 11 pp.</p> <p><i>Energy Saving Checklist for Home Builders, Buyers, and Owners.</i> 1979. 4 pp.</p> <p><i>1982 Gas Mileage Chart.</i> 28 pp.</p> <p><i>How to Improve the Efficiency of Your Oil-Fired Furnace.</i> 1978. 9 pp.</p> <p><i>How to Save Gasoline...and Money.</i> 1979. 7 pp. Spanish edition available.</p> <p><i>Hydrogen Fuel.</i> 1978. 22 pp.</p> <p><i>Insulate Your Water Heater and Save Fuel.</i> 1978. 3 pp.</p> <p><i>Magnetic Fusion.</i> 1978. 9 pp.</p> <p><i>Professional Energy Careers.</i> 1979. 45 pp.</p> <p><i>Solar Energy.</i> 1979. 27 pp.</p> <p><i>Where to Find Information About Solar Energy.</i> 1979. 33 pp.</p> <p><i>Winter Survival: A Consumer's Guide to Winter Preparedness.</i> 1978. 18 pp.</p> <p><i>Low Cost, No Cost.</i></p> <p>Teachers' Resource Material:</p> <p><i>Energy Ant Book.</i> Grades K-3. Explores energy conservation with energy ant in a 30-page book. 1 copy on request.</p> <p><i>The Energy We Use.</i> Grades 1-2. Introduction to energy. Begins with student recognition of common energy forms. Introduces important energy sources such as the sun, wind, water, and fossil fuels.</p> <p><i>Community Workers and the Energy They Use.</i> Grades 2-3. Unit highlights "helpers" who deliver energy, such as the oil deliverer, the gas station attendant, and the meter reader. Also describes the farmer and the banker, whose jobs are closely linked to energy.</p>

U.S. DEPARTMENT OF ENERGY (Continued)
Technical Information Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
		<p><i>Energy and Transportation.</i> Grades 3-5. Uses clarification activities, picture studies, and other developmental approaches to describe transportation in the neighborhood, community, and nation.</p> <p><i>Networks: How Energy Links People, Goods, and Services.</i> Grades 4-5. Describes dependence on energy systems. Lessons include making models of electrical systems and naming the interacting parts.</p> <p><i>The Energy Dome.</i> Grades 4-6. Social studies unit with 14 lessons. Students look at all aspects of building and operating a domed stadium, an obvious large user of energy. They learn how Americans use energy that rapidly deplete stores of fossil fuels.</p> <p><i>Science Activities in Energy.</i> Grades 4-6. Six file-folder units contain simple hands-on science experiments designed to help students learn about forms and sources of energy.</p> <p><i>How We Make Energy Work.</i> Grades 4-6. Science study unit with 10 lessons on the technology of energy production. Students learn how raw energy is converted to usable energy in solar, nuclear, and coal conversion systems. Also examines common technologies such as hair dryers and home heating systems.</p> <p><i>Bringing Energy to the People: Ghana and the U.S.</i> Grades 6-7. Compares energy use in Ghana and its capital city, Accra, with the Washington, D.C. metropolitan area. Unit considers energy as a basic need and examines it in terms of climate, location, existing and planned power sources, transportation systems, and life styles.</p> <p><i>Two Energy Gulfs.</i> Grades 6-7. A comparative study of the energy potential in the Gulf of Mexico and the Persian Gulf. Considers geography, geology, climate, and production technology, as well as the effects of oil production on the cultures of the two regions.</p> <p><i>What is Energy?</i> Grades 6-11. Series of four booklets designed for language arts classes. Each booklet has articles on energy topics.</p>

U.S. DEPARTMENT OF ENERGY (Continued)
Technical Information Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
		<p><i>Mathematics in Energy.</i> Grades 7-8. Deals with a wide range of energy problems through the use of basic mathematical processes. Included are fractions, decimals, graphs, conversions, statistics, and the manipulation of energy units such as watts, calories, and joules.</p> <p><i>The Energy Future Today.</i> Grades 7-9. 10 lessons. Study unit looks at decisions on the use of fossil fuels, conservation, allocation of scarce resources, and development of renewable energy sources. Using concepts of scarcity, tradeoffs, investment, and decision-making, students draw from science and social studies to decide various courses of action for energy supplies and use.</p> <p><i>Geothermal Energy.</i> Grades 7-9. File-folder unit with two lessons on geothermal energy. Includes classroom poster and photocopy masters for student worksheets.</p> <p><i>Energy, Engines, and the Industrial Revolution.</i> Grades 8-9. Combines social studies and science lessons in a theme common to U.S. history and world geography courses at the junior-high level. Examines inventions and inventors, the relation of energy sources to the growth of cities and industries, and the effects of the industrial revolution. Also looks at energy sources and energy conversions, with special attention given to the heat engine.</p> <p><i>Energy Transitions in United States History.</i> Grades 8-9. Charts the growth of American energy use and traces the history of the major sources of energy in the U.S. Examines past interactions between energy users and their environment, and investigates the future of alternative energy technologies.</p> <p><i>Transportation and the City.</i> Grades 8-9. Unit relates transportation to energy use. Social studies lessons deal with transportation systems, concepts of efficiency, and the effects of the automobile on the urban community. Science lessons apply supply and demand calculations to oil resources and present some simple experiments which anticipate new transportation technology.</p> <p><i>Energy in the Global Marketplace.</i> Grades 9-11. Explores the role of energy in world trade and in the global balance of power. Examines the major energy "haves" and "have-nots." Describes how energy prices are determined.</p>

U.S. DEPARTMENT OF ENERGY (Continued)
Technical Information Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
		<p><i>How a Bill Becomes a Law to Conserve Energy.</i> Grades 9-12. Focuses on the legislative process. Includes a fabricated Citizen's Band (CB) radio conversation, a simulated congressional hearing on the 55 MPH speed limit bill, which was adapted from the actual hearing record, and exercises in graph construction and interpretation.</p> <p><i>Agriculture, Energy and Society.</i> Grades 10-12. Packet based on the conviction that an energy/food production crisis is already with us. Presents basic economics of food production, profit and loss, and the law of diminishing returns. Lessons build skills in data analysis, graph interpretation, and an understanding of energy units and their conversions.</p> <p><i>Western Coal: Boom or Bust.</i> Grade 11. Investigates energy resources in the West and studies the effects of possible large-scale resource development on the economy, environment, and social structure of the western United States.</p> <p><i>U.S. Energy Policy: Which Direction?</i> Grades 11-12. Designed as a companion to the unit "How A Bill Becomes a Law to Conserve Energy" which studies the workings of the legislative branch. This unit concentrates on the administrative arm of government and the various forces that go into formulating a national policy.</p>
